

User Story:

A admin can view an interactive diagram based on progress reports for that current year.

Acceptance Criteria:

- Graph should clearly indicate reports that have
 - Not been started
 - Are in progress
 - Complete
- Also clearly identified:
 - The total number of submissions expected (same as total number of participants - which is the number of faculty)
 - The waiting on total (any assessment not yet submitted i.e. in progress and not started)
- User should be able to select quarter (or academic year) from drop down, and have the data reflect selected time period.
- Admin should be able to view, and extract the names of all faculty who haven't completed assessments, and additionally have access to what department they are in.

User Story:

A admin can view the status of all the reports using the filters by the faculty (pending, in progress, compete) with a link to their profile
